Dear Judge Rice,

9/26/16

You know, I was in your courtroom today. My name is Dwane Taylor No. 4:15 CR00335. Casey Hale is my attorney and he has been good about assisting me in things that I personally need in my case.

Now, I know there is a process in every situation. There was several questions that I wanted my attorney to ask the Police Officers whom ~~at~~ the stand this morning - and it didn't happen. That police officer just bluntly lied on me and our dealings with each other.

He committed perjury on your stand. I have evidence to prove it. Plus, I like to "persevere" this issue in case something goes wrong in my case in the future. Because I have Major Case Squad reports well 12 pages that has what really took ~~place~~ place on the 7th of June thru the 11th of June 2015. They have valuable information in them. But all 12 pages are redacted. And my attorney requested to have them un-redacted over a year ago August 19, 2015. But the government never gave us un-redacted copies - so that I can properly defend myself. I am waiting you outside my attorney - is because my life is on the line and I am not trying to cause any problem with him. I did not raise my hand in court because I did, not want to disrupt.

my athena

I just hope and pray that you really review my first issue where the ~~phone~~^{Police} illegally obtained my phone from me.

phone from me. But most of all I want to "perseme" this issue, because there are unreflected copied pages that tells what really happens to me.

Plus, I hope that you review every-
thing. I wanted to testify myself
at the Motion Hearing - because the
Police officer was lying about what
really happen. I have yet to hear
the tape recorded conversation. Did
the Police officer log in the time of
day he was recording me. Because
that is highly important. The Police
officer lied and said I called
him on June 10th, 2015 and told him
I want to come in and clear my name
and gave him my phone - but I refused
to sign consent form. That does not
make any sense. A

Confused - on why the government ~~was~~ willing to disregard an interview but not phone records. That case has nothing to do with my present case - it's all background evidence - which will prejudice my case if used at trial anyway.

How can you make a proper distinction
in my case and you do not have MCS
police report - which is retracted. On top of
that I have evidence to convince you
that I did not call that police officer
on June 10th 2015 - and that he committed PERJURY.
Taylor
